

BIBLE EXPLORER REPORT JULY 2019

As the BX team continues to teach in schools, one of the ways they use to evaluate the progress of the programme is by assessing learners through Bible Explorer tests. Those who score good grades receive gifts as a token of motivation to encourage them to work extra hard. The UK donated some books which were given as presents for those who did well. The Bible Explorer programme has become a “weapon” of behaviour change and spiritual encouragement in the lives of many Malawian children.

Right: Learners who received books from Starfish Office for scoring good grades

The Bible Explorer programme is unique in its approach and thus attracts learners. They enjoy the storylines of the Bible, events that occurred and the character of God. Learners also enjoy the handsigns and it gives them energy during the lesson.

CASE STUDIES

Right: Meet Hanifa Dinesi from Chimsolo Primary School

Hanifa Dinesi, a standard 5 learner at Chimsolo School, said she is Muslim and so is her family.

“BX has helped me to know God's word through the Bible stories from BX lessons. My parents also encourage me to be attending BX even though I am Muslim. My behaviour has changed and I like the story of Joseph. This story teaches me about love and forgiveness.”

Left: Brian Nyirenda

“I am Brian Nyirenda, a standard 5 learner at Makande School. I am Christian and so is my family. As a boy I have been involved in wrong acts like fighting, being disrespectful to elders and to my parents. In addition to this I couldn't forgive those who wronged me. Now my behaviour has changed and I know the word of God through this programme and I like the story of Joseph.”

Right: Chisomo Gantie

Chisomo Gantie is a standard 5 Teacher at Mgoza School. She says that Bible Explorer has helped the learners to know God's word and their behaviour has also changed. They liked the programme and they nicknamed their BX teacher Mr Creation because of the handsigns.

Left: Wilson Katumbu a teacher from Katitima

Wilson Katumbu, a standard 5 teacher at Katitima School, says BX has helped the learners understand Bible stories because in some churches they fail to explain it well, even to adults. I also learnt a lot being a Bible Knowledge teacher. Learners enjoy the story of creation. We hope the programme will go on since it also helps the learners to make good choices in life.

THIRD TERM BIBLE EXPLORER DATA

PRESENTER	NUMBER OF SCHOOLS	TOTAL # OF LEARNERS
Wiseman Mussa	5	1571
George Edward	5	637
Agnes Gama	4	556
Malinga Kasoliphetsa	4	860
Naomi Chibisa	4	261
Tionge Sitima	5	862
Lackson Magombo	5	507
Sembe Dziwitse	5	602
Benard Phiri	5	1269

Total Number of Children reached so far is **7,125**

**Compiled by Programme Coordinator,
Wiseman Mussa**
