

SECOND TERM BIBLE EXPLORER REPORT

Bible Explorer is an educational programme taught in local primary schools in Malawi particularly in standards five and six. Its unique keywords and hand signs help the learners to remember the story line of the Bible stories.

Secondly, Bible Explorer presenters locate the major geographical movements of all the key characters and put them in the historical context of life at that time. Finally, as the programme is simply learning the Bible stories, it does not reflect any particular church denomination, is an educational tool for Children of all faiths.

IMPACT OF BIBLE EXPLORER IN MALAWI SCHOOLS.

Please find below comments from Malawian teacher's and learner's.

Am **Mathias Chipembere**, a standard 5 learner at Simaewa School. Bible Explorer has helped me to be obedient to both God and my parents. At first, I was a troublesome child to my parents and now my behaviour has Changed, and I like the story of Adam and Eve that God was visiting them before they sinned and later, they were chased away out of the garden, God hates sin.

Am **Jacqueline Skiva**, a Standard 5 learner at Mtemeiti School. Bible Explorer has helped me to know the love of God that he gives us time to repent and come back to him.

Am **Miss Chikhadwe**, the headteacher at Chikuluti School. Bible Explorer has helped our School in the sense that class attendance rate has remarkably improved on the days it is taught. Secondly, there is decrease in indiscipline cases at our School because the learners are now following School rules hence, they control their actions when they wronged each other. Now there is no cases of fighting and running away from classes as well.

Lastly Bible Knowledge is enjoyed by most of the learners because of the approach of the presenter and we are asking that all classes should learn bible explorer.

Am **Taonga Sayini**, the class teacher at Msalura School, with shortage of teachers guides at our School, Bible Explorer has done great work in filling the gap because it has simplify our work in bible knowledge as a subject. The programme has also assisted learners to behave and respect teachers. Lastly, I just want to pass my appreciation for the introduction of Bible explorer at our School.
